IAS STAFF MEETING MINUTES

12 October 1973

25X1A

G. Allen

--

25X1A

1. At the Executive Council Meeting this morning, the main topic of discussion centered around the current Middle East problem and photo coverage. Mr. Proctor made it plain to the group that the SR-71 activity will be closely held and not discussed outside of this building except with those having a "need to know". The Middle East portion of the KH mission will be here on Saturday, and the SR-71 mission on Sunday. Special assessments will be done on both missions with OSR. Mr. Proctor urged that we keep records on the requirements that we get from production offices for use in any post-mortem exercise.

2. Mr. Colby agreed to Mr. Duckett's suggestion that new staff action be undertaken on the desirability of having a standby satellite capability. NRO and COMIREX will be taking a look at this problem.
